

PERMIT APPLICATION: NRS04.189

APPLICANT: Mike and Debbie Minor
7 Hawk Road
Fayetteville, Tennessee 37334

LOCATION: Walker Branch in Fayetteville, Lincoln County; 35° 03' 17"N, 86° 34' 36"W

WATERSHED DESCRIPTION: Walker Branch at the proposed impact location is a second order, perennial stream. Immediately upstream of the proposed impoundment are two other impoundments, both of which are on the same tributary. Another, un-dammed tributary joins the first tributary upstream of the proposed impoundment.

PROJECT DESCRIPTION: The proposed work involves excavation of the floodplain in proximity to the stream channel to form a basin and impoundment. A small impoundment structure 3' to 4' high would also be constructed. The total area to be excavated is about 90' wide, 500' long and 4' to 5' deep. A bulldozer and backhoe would be used to dig the loose alluvial gravel and dirt from the floodway to form the lake basin.

PERMIT COORDINATOR: Robby Baker
